

HOLIDAY ENGAGEMENT

**JUNIOR SCHOOL
GRADE 1 (2026-27)**

Dear Parents and Students,

As we step into the much-awaited summer break, I would like to remind each one of you that holidays are not only a time for rest and recreation, but also an opportunity for meaningful learning and personal growth.

The holiday assignments have been thoughtfully designed to encourage students to explore, observe, create, and learn beyond the four walls of the classroom. Learning does not happen only through books; some of life's most valuable lessons emerge through real-world experiences, conversations, travel, reflection, and discovery.

Travel, in particular, can be a deeply enriching experience for young people. Exploring different places, communities, cultures, languages, traditions, and natural environments helps students develop a broader understanding of the world beyond what can be learned in textbooks. Such experiences nurture curiosity, adaptability, confidence, and real-world understanding, while also creating treasured family memories. Meaningful travel experiences also help strengthen local communities and foster a deeper appreciation for the diversity and interconnectedness of society.

As students of our school, I encourage you to carry the spirit of our **THRIVE** values wherever you go:

- **Team-Centric** – Spend quality time with family and friends, learn to cooperate, share responsibilities, and grow together.
- **Harmonious** – Respect the people, cultures, traditions, and environments you encounter during your travels and experiences, promoting understanding and mutual respect.
- **Resilient** – Embrace new experiences and challenges as opportunities to become stronger, more confident, and more adaptable learners.
- **Innovative** – Think creatively, try new activities, solve problems independently, and approach the world with curiosity and imagination.
- **Versatile** – Explore a variety of interests such as reading, travelling, art, sport, nature, or community service, and discover new talents and passions.
- **Empathetic** – Be kind, considerate, and mindful towards others, appreciating the efforts and contributions of people within your community and society.

I encourage all students to complete their holiday assignments sincerely and creatively. Let your work reflect not only knowledge, but also imagination, observation, and personal experiences.

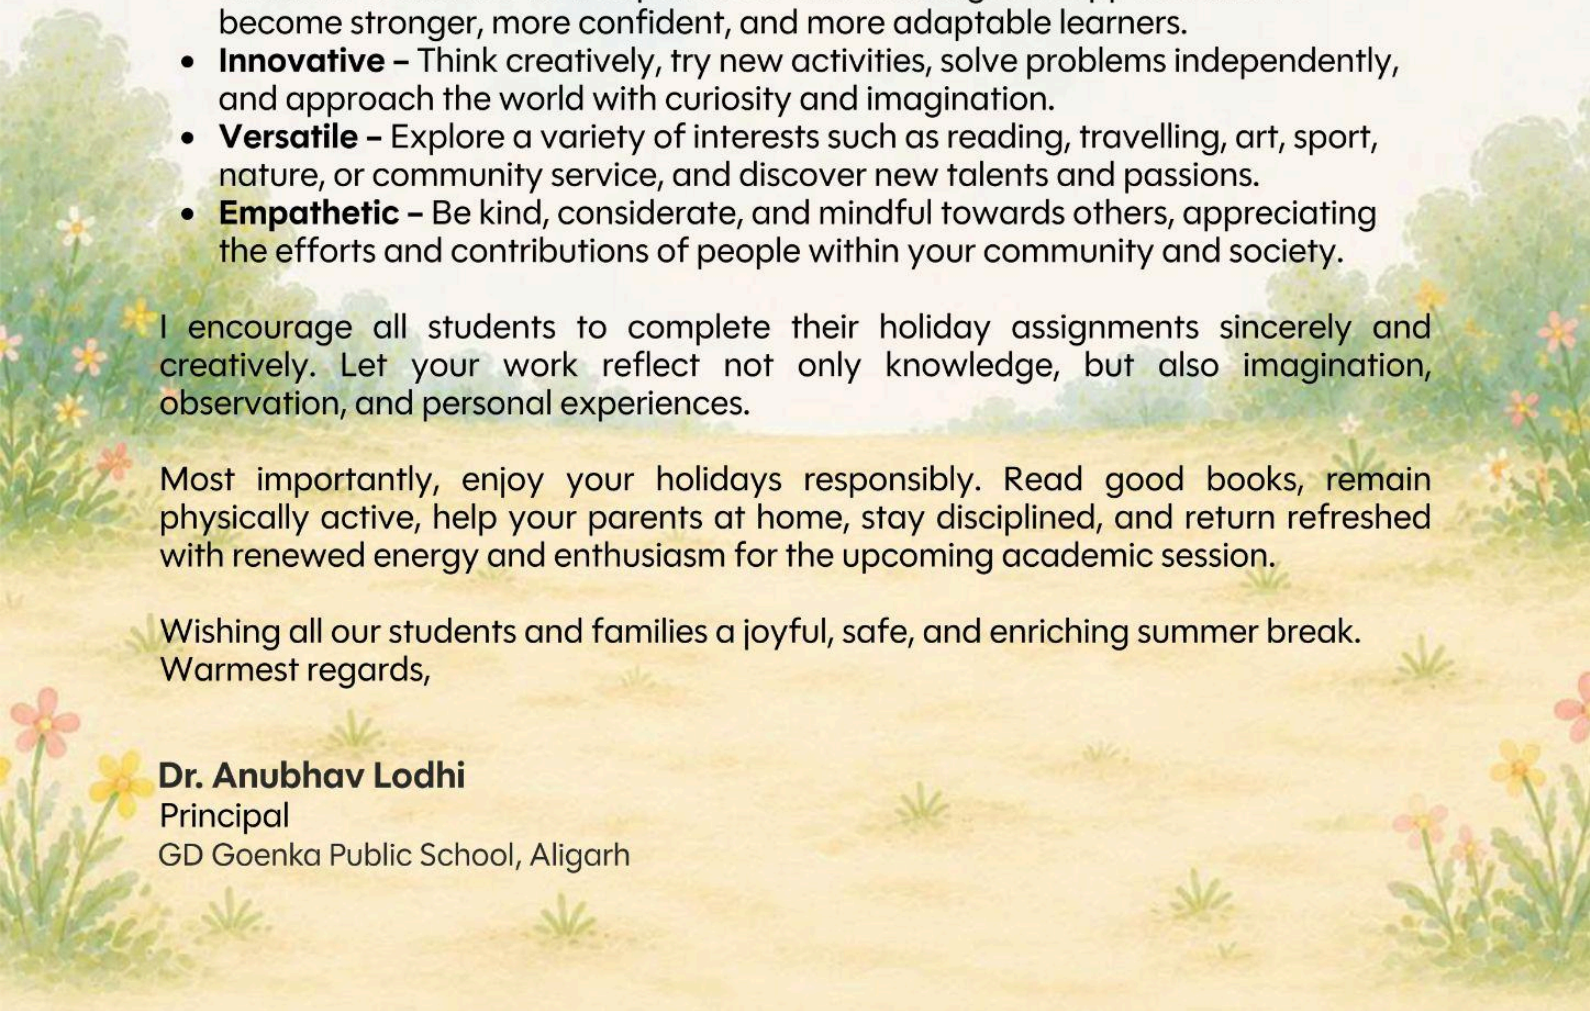

Most importantly, enjoy your holidays responsibly. Read good books, remain physically active, help your parents at home, stay disciplined, and return refreshed with renewed energy and enthusiasm for the upcoming academic session.

Wishing all our students and families a joyful, safe, and enriching summer break.
Warmest regards,

Dr. Anubhav Lodhi

STEM LEARNING

EXPERIMENT

Hangin' Out for Answers!

THINGS REQUIRED

- 1 coat hanger
- 2 empty plastic containers of the same type
- 4 pieces of string (8 inches long each)
- Household objects such as a pencil, eraser, sharpener, fork, spoon, etc.

STEPS TO FOLLOW

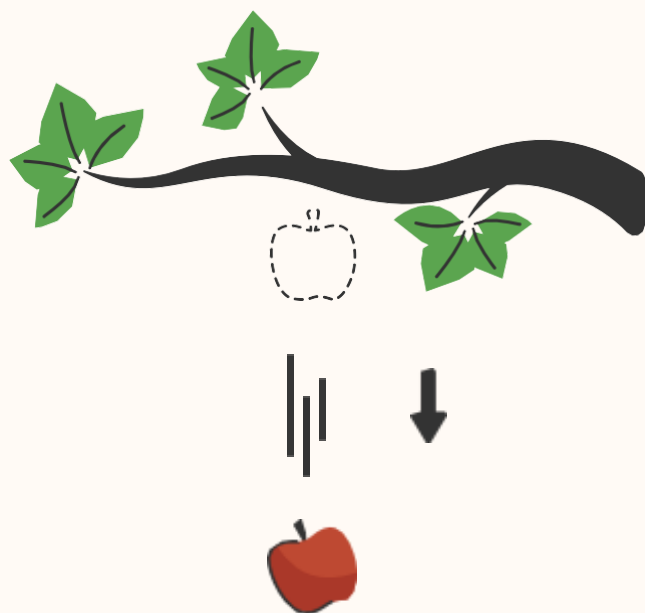

- Take one of the plastic containers and tie a piece of string to each side.
- Repeat the same process with the other container.
- Attach one container to each end of the coat hanger.
- Now hang the coat hanger from a table or a ledge so that it can move freely.
- Put various objects into the containers and observe what happens.
- Can you make both containers hang at the same level?

LEARNING OUTCOME

- **Understand the Concept of Weight** – Identify that different objects have different weights and compare heavier and lighter items.
- **Recognize How Balance Works** – Observe how adding or removing objects affects balance on a simple scale.
- **Demonstrate Basic Measuring and Comparing Skills**
 - Use a balance scale to estimate and compare the weight of everyday objects.
- **Explore the Force of Gravity** – Understand that gravity pulls objects toward the Earth and keeps them from floating away.
- **Use Scientific Vocabulary** – Learn and correctly use terms like heavier, lighter, balance, weight, gravity, and scale.
- **Foster Curiosity and Critical Thinking** – Ask “What if?” questions, such as: What happens if I switch the objects? or Can I make both sides equal?

SCIENTIFIC CONCEPT

The force that pulls objects toward the Earth is called gravity. We are able to walk on the Earth because of gravity. Without gravity, people would float into space.

CLASS 1 SUMMER READING

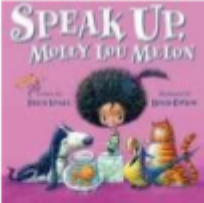

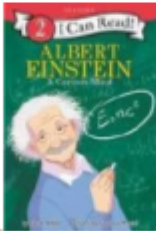

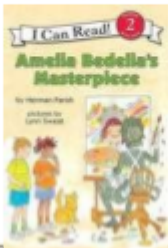

Dear Parents,

Summer reading for little Genkans'—it's important! Research shows that kids who read, are better prepared for the academic school year, and do not go down the 'summer slide'- the loss of reading and learning skills during the summer holidays.

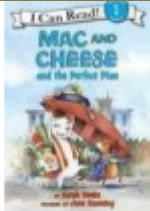

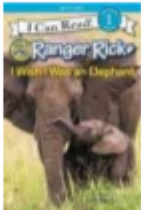

Make reading 'down-time'- an opportunity for family members to bond together. Attached is curated book list with links for your review. Please choose what interests your child. Happy, Relax, Reading!
