HOLIDAY ENGAGEMENT

**SENIOR SCHOOL
GRADE 10 : 2026-27**

Dear Parents and Students,

As we step into the much-awaited summer break, I would like to remind each one of you that holidays are not only a time for rest and recreation, but also an opportunity for meaningful learning and personal growth.

The holiday assignments have been thoughtfully designed to encourage students to explore, observe, create, and learn beyond the four walls of the classroom. Learning does not happen only through books; some of life's most valuable lessons emerge through real-world experiences, conversations, travel, reflection, and discovery.

Travel, in particular, can be a deeply enriching experience for young people. Exploring different places, communities, cultures, languages, traditions, and natural environments helps students develop a broader understanding of the world beyond what can be learned in textbooks. Such experiences nurture curiosity, adaptability, confidence, and real-world understanding, while also creating treasured family memories. Meaningful travel experiences also help strengthen local communities and foster a deeper appreciation for the diversity and interconnectedness of society.

As students of our school, I encourage you to carry the spirit of our **THRIVE** values wherever you go:

- **Team-Centric** – Spend quality time with family and friends, learn to cooperate, share responsibilities, and grow together.
- **Harmonious** – Respect the people, cultures, traditions, and environments you encounter during your travels and experiences, promoting understanding and mutual respect.
- **Resilient** – Embrace new experiences and challenges as opportunities to become stronger, more confident, and more adaptable learners.
- **Innovative** – Think creatively, try new activities, solve problems independently, and approach the world with curiosity and imagination.
- **Versatile** – Explore a variety of interests such as reading, travelling, art, sport, nature, or community service, and discover new talents and passions.
- **Empathetic** – Be kind, considerate, and mindful towards others, appreciating the efforts and contributions of people within your community and society.

I encourage all students to complete their holiday assignments sincerely and creatively. Let your work reflect not only knowledge, but also imagination, observation, and personal experiences.

Most importantly, enjoy your holidays responsibly. Read good books, remain physically active, help your parents at home, stay disciplined, and return refreshed with renewed energy and enthusiasm for the upcoming academic session.

Wishing all our students and families a joyful, safe, and enriching summer break.
Warmest regards,

Dr. Anubhav Lodhi

ENGLISH

Invest In Yourself!

Focus On Intrinsic Motivation.....

The summer assignment in English will help you to enhance your educational quotient! Do away with monotony and explore your English Literature books as they hold the mirror up to different aspects of life and people.

Instructions:

Use 2 pages of your blue Literature notebook. Make a neat and attractive research project on any ONE of the following:

Choose Only ONE Topic From The Following List of 5 topics:

1. Journaling encourages us to be observers of the world, to be reflective of our experiences, and of course, to become expressive writers. Use 2 pages of your notebook and create a Personal Vision Board of words, quotes, and a collage of images and write ups of the person that you WANT to become.
2. Use 2 pages to present an analysis of Robert Frost OR Walt Whitman OR Carl Sandburg as a famous American Poet. Find some of the famous poems / lines written by this poet on poemhunter.com. Add details about the poet's life.
3. Read the section, Glimpses of India, on page 85 of your textbooks: First Flight. Based on this choose any ONE of the following tasks:

Use 1 page to write a description of yourself as a protector of the environment! Write 2-3 paragraphs on how you are preserving the greenery and appreciating the wild life and the scenery as you travel within India. Make an informative and interesting profile that can be used in the school Yearbook too. Provide the title : 'Goenkan Eco-Tourist' Link an eco -friendly attitude with exploration and enjoyment.

OR

Collect information about tea and coffee: their evolution as a drink, their beneficial qualities and their cultural relevance. Use 2 pages of the notebook to make a comparison between the two. Include history, brewing process, recipes, medicinal values and any other interesting fact.

4. Use 2 pages of your notebook and prepare a Book Review on: Diary of a Young Girl by Anne Frank.

Include the following in your Book Review:

- Theme / analysis
 - Important features of the characters
 - Relevant and interesting incidents: How you were impressed by the book.
5. What determines success in life is not intelligence or talent, but character: those qualities gained both from living in an honourable and straightforward manner and from learning to deal with disappointment and hardship. Without character, an individual has no hope of true success.
- Even when competing against opponents of considerable intelligence or strength, those individuals who possess strong character will ultimately win.
- Does a person's character determine that person's success in life ?
- Plan and write an essay of 250-300 words in which you develop your point of view on this issue.
- Support your position with reasoning and examples taken from your reading, studies, experiences or observations.

Important Note:

The homework must be original and the proper references should be made in accordance with the task.

Neat presentation would be highly appreciated. Do NOT use stickers / stones or beads. Avoid glitter and sticker tape.

Curated Compilations From English Department: Summer Reading List.

Let us do away with monotony and explore the wonderful world of fiction. A great work of fiction can allow us to see the truths that may be hidden from us in real life.

- | | |
|---------------------------|---------------------|
| 1. The Catcher in the Rye | J D Salinger |
| 2. Lord of the Flies | William Golding |
| 3. The Thorn Birds | Colleen Mc Cullough |
| 4. Gone with the Wind | Margaret Mitchell |
| 5. The Godfather | Mario Puzo |
| 6. Kane and Abel | Jeffrey Archer |
| 7. Siddhartha | Herman Hesse |
| 8. The Kite Runner | Khaled Hosseini |

We should look for books that make us think harder, not easier. Personal growth is tucked away in the pages that question our world view !

MATHEMATICS

Part-A

Material/Resources Required:

A scrap book or A-3 or A-4 sheets, coloured pens, glue.

Instructions:

Choose any one topic for your project work.

Project in a scrapbook (12 to 15 pages) to be submitted to the subject teacher or a PPT of 10 to 12 slides to be uploaded in your respective Math GCR.

Projects :

- A. “MATH IN DESIGN : PATTERNS WITH ARITHMETIC PROGRESSIONS” : Arithmetic progressions give a feeling of predictable growth and balance. Unlike geometric progressions which explode exponentially, arithmetic patterns feel stable, measured and man-made. That’s why they are everywhere in engineering, architecture, and tessellation art.

Explore some interesting mathematical designs and patterns using Arithmetic Progression and the areas where such designing techniques can be applied.

Present your work with the help of relevant information and designs/ pictures/patterns/tables etc.

- B. “GEOMETRY IN URBAN PLANNING”: Mathematics plays a crucial role in urban planning projects as it provides tools for designing, analyzing and optimising urban spaces. Students can apply mathematics in an urban planning project by incorporating the geometry of sustainable buildings, designing eco-friendly spaces and optimum resource management. Building design, Road design and Public space design are few areas which can be explored with the use of geometric principles.

Elaborate from the above examples with the help of relevant information and pictures/designs/graphs/tables etc.

The Project work will be assessed on the following parameters - content, accuracy, originality, presentation and creativity.

Part B

Following questions to be done in orange notebooks, to be submitted after the summer break. Kindly refer to the document.

☰ CLASS X-HHW SUMS-2026-27

SCIENCE

Science is all around us, and making science projects is a great way to explore its wonders. From the intricate details of nature to the complexities of technology, science projects offer a chance to learn, create, and innovate. So, what will you create during these vacations? A working model, an exhibit, or something entirely new? The possibilities are endless!

You have been assigned two tasks (A and B) for the summer Holiday Engagement.

A. Design a project in the form of a working model/demonstrate an activity based on any concept of Science (of your choice) in a group of 4-5 students. You may choose from the following suggested topics:

1. Build a walking robot
2. Developing automatic doorbell with pizzo electricity
3. Power generation from footpath
4. Quantum computing -The next Tech Revolution.
5. Space Debris - Mitigation strategies
6. Climate Engineering -A solution or Threat
7. AI in War & Defence
8. Cancer and its effects on the body.
9. Neurotransmitters.
10. Biofuels and its effects on Nature.
11. Controlling microplastics
12. Semiconductor empire
13. Science of zodiacs
14. Inside a black hole
15. Activities based on Light, Heat, Gravity, Force, Electricity, etc

Instructions:

1. You will be required to submit a chart (with well labelled diagrams) and a handwritten project report based on the working model.
2. You will be required to present this project with your team members in the class.
3. This will be marked for your Internal Assessment based on the following parameters:
 - a. Content
 - b. Originality
 - c. Presentation
 - d. Creativity
 - e. Punctuality

B. Read newspapers/magazines daily and look for articles related to Science. Cut and paste the articles in a scrapbook (10 - 15 pages). This has to be done individually. Print-outs from the internet are strictly prohibited.

Date Of Submission: July 2026.

SOCIAL SCIENCE

CBSE Project Work

Objectives:

The overall objective of the project work is to help students gain an insight and understanding of the theme and see all the Social Science disciplines from an interdisciplinary perspective. Students will be able to apply their prior conceptual knowledge that they have learnt over the years in order to prepare the project report. If required, students may go out, collect data and use different primary and secondary resources to prepare the project. The project work will help in art integration, enhancing the Life Skills of the students.

Topics of CBSE Project:

POLITICAL SCIENCE

Instructions:

1. Conduct a research on **any 2 National Political Parties** and **any 2 Regional Political Parties** and record your research in your political science notebooks under the following heads:
 - a. Party name
 - b. State to which they belong and Party symbol
 - c. Who are the leaders
 - d. When was it founded
 - e. Party motto
 - f. Is this a state party or a national party? Why?
2. Read the case study below and answer the questions that follow:

In a recent election cycle in India, two newly formed political organizations campaigned vigorously:

The 'Pradesh Vikas Party' (PVP) focused entirely on one state. Its manifesto promised 80% reservation in local administrative jobs for the native-language speakers of that state and heavily demanded greater state autonomy and financial devolution from the Union Government. In the subsequent State Legislative Assembly (Vidhan Sabha) elections, the PVP secured 7% of the total valid votes in that state and won 3 seats.

The 'Rashtriya Ekta Dal' (RED) launched campaigns across multiple states. Its manifesto focused on national security, modernizing the Indian Armed Forces, implementing a uniform pan-India agricultural trade policy, and digitizing rural infrastructure. In the general elections to the Lok Sabha, the RED secured 8% of the total valid votes spread across 5 different states and won 5 Lok Sabha seats.

- (a) Evaluate the electoral performance of both parties against the official criteria of the Election Commission of India (ECI). Classify the formal status that will be granted to the Pradesh Vikas Party (PVP) and the Rashtriya Ekta Dal (RED)
- (b) If the single largest national party falls short of the 272-seat majority mark in the Lok Sabha, explain how the emergence of parties like the PVP affects the nature of union governance in India.

3. Complete the Q/A of Chapter 2- Federalism given in your GCR, in your political science notebooks

Work Specification:

1. To be aesthetically done in notebooks
2. Specify correct question numbers
