

# HOLIDAY ENGAGEMENT

**JUNIOR SCHOOL  
GRADE 2 (2026-27)**

Dear Parents and Students,

As we step into the much-awaited summer break, I would like to remind each one of you that holidays are not only a time for rest and recreation, but also an opportunity for meaningful learning and personal growth.

The holiday assignments have been thoughtfully designed to encourage students to explore, observe, create, and learn beyond the four walls of the classroom. Learning does not happen only through books; some of life's most valuable lessons emerge through real-world experiences, conversations, travel, reflection, and discovery.

Travel, in particular, can be a deeply enriching experience for young people. Exploring different places, communities, cultures, languages, traditions, and natural environments helps students develop a broader understanding of the world beyond what can be learned in textbooks. Such experiences nurture curiosity, adaptability, confidence, and real-world understanding, while also creating treasured family memories. Meaningful travel experiences also help strengthen local communities and foster a deeper appreciation for the diversity and interconnectedness of society.

As students of our school, I encourage you to carry the spirit of our **THRIVE** values wherever you go:

- **Team-Centric** – Spend quality time with family and friends, learn to cooperate, share responsibilities, and grow together.
- **Harmonious** – Respect the people, cultures, traditions, and environments you encounter during your travels and experiences, promoting understanding and mutual respect.
- **Resilient** – Embrace new experiences and challenges as opportunities to become stronger, more confident, and more adaptable learners.
- **Innovative** – Think creatively, try new activities, solve problems independently, and approach the world with curiosity and imagination.
- **Versatile** – Explore a variety of interests such as reading, travelling, art, sport, nature, or community service, and discover new talents and passions.
- **Empathetic** – Be kind, considerate, and mindful towards others, appreciating the efforts and contributions of people within your community and society.

I encourage all students to complete their holiday assignments sincerely and creatively. Let your work reflect not only knowledge, but also imagination, observation, and personal experiences.

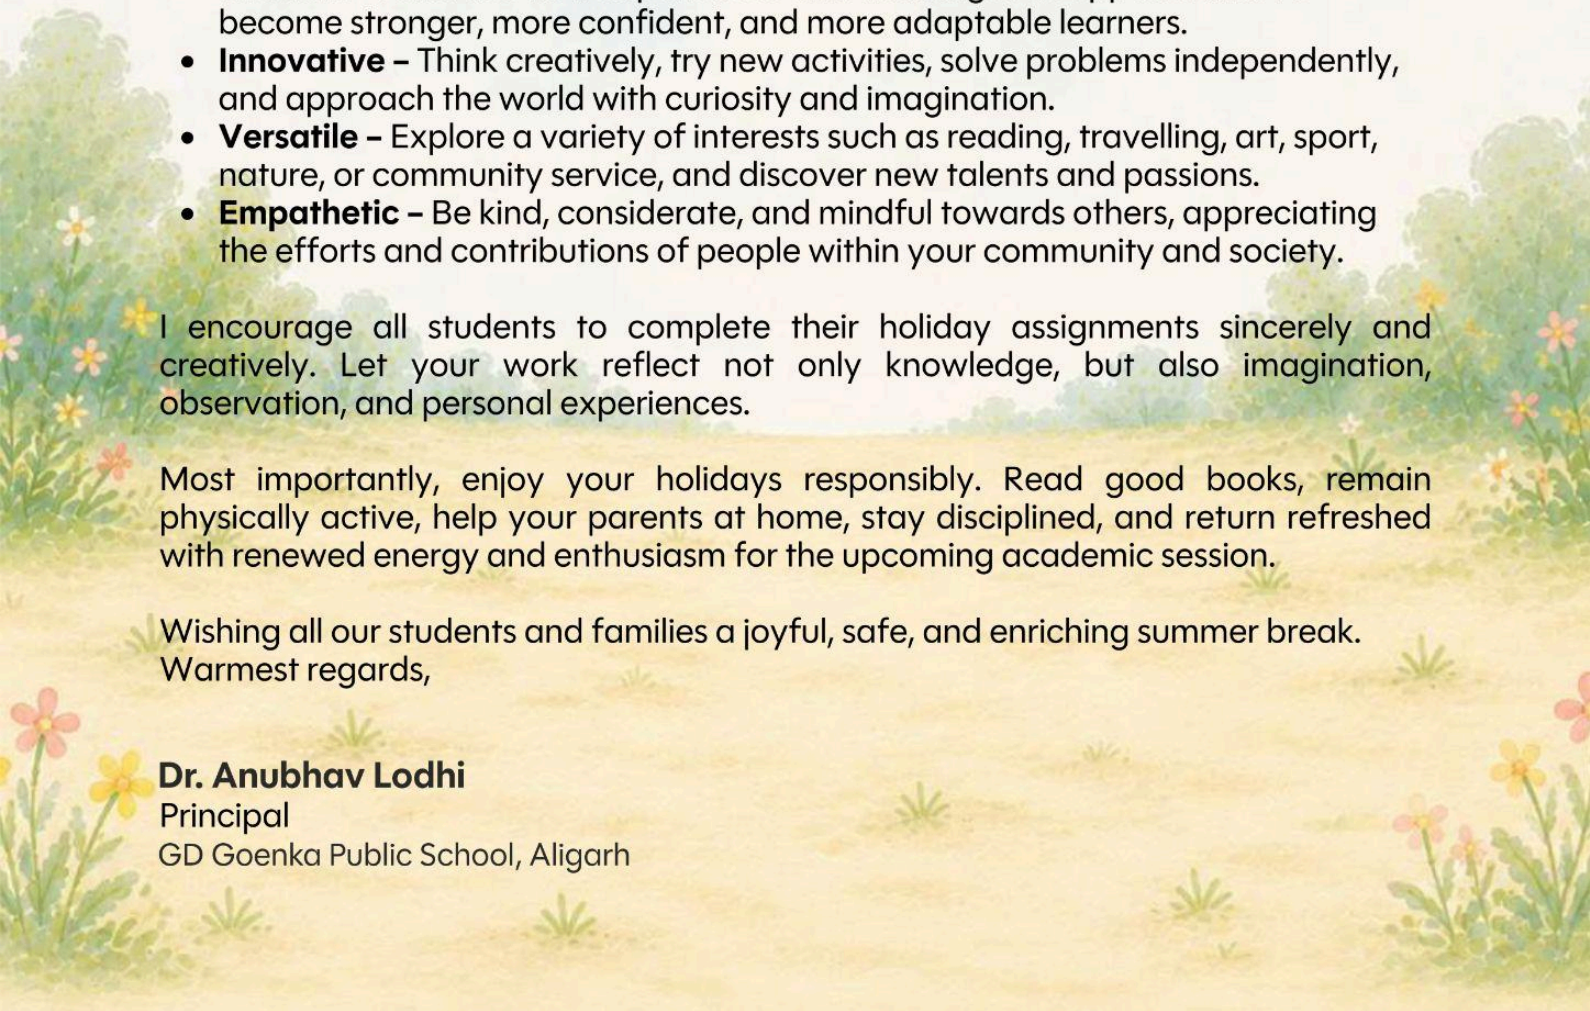

Most importantly, enjoy your holidays responsibly. Read good books, remain physically active, help your parents at home, stay disciplined, and return refreshed with renewed energy and enthusiasm for the upcoming academic session.

Wishing all our students and families a joyful, safe, and enriching summer break.  
Warmest regards,

**Dr. Anubhav Lodhi**

# LIFE SKILLS

## THEME

Kitchen Helpers  
Fresh Food Helpers

## LEARNING OUTCOME

Problem-solving, fine and gross motor skills, hand-eye coordination, healthy eating habits, food safety awareness, teamwork and communication, critical thinking, and creativity.

## FRIDGE ORGANIZERS

Students will sort fruits, vegetables, and dairy products into categories, place them in designated fridge sections, and identify their storage requirements. They can also create labels for each section. Children will understand the need for and importance of proper food storage and safety. This hands-on activity promotes problem-solving, food safety awareness, teamwork, and communication.

By designing and creating their own fridge organizers, students will apply critical thinking and creativity while building essential life skills in a fun way!

**Click lots of pictures and create fridge magnets!**

# LIFE SKILLS

## THEME

My Environment

Nurturing young explorers!

## LEARNING OUTCOME

Curiosity, measurement skills, observation and recording, patience and responsibility, and scientific inquiry.

## SEED WATCHERS FUN!

### Let's Grow!

1. Plant Seeds: Get your hands
  2. Water Daily: Keep your seeds
  3. Measure Height: Use hand span to see how tall the plant has grown!
  4. Count Leaves: How many leaves?
  5. Track the Days to Sprout: Wait and watch!
  6. Draw Pictures: Show your plant's growth!
  7. Take Pictures: Capture your plant's progress! Watch your seeds grow and learn!
- Take pictures to record your plant's progress.

# LIFE SKILLS

## THEME

### Helping Hands

## LEARNING OUTCOME

This activity develops fine motor skills, teamwork, communication, responsibility, independence, and table manners.

### TABLE SETTING EXPERTS!

Let's set the table for our family meal! We'll put out plates, utensils, glasses, and napkins. We can even add a centerpiece. After the meal, we'll work together to clear the table and wash or put the dishes in the dishwasher. Who can help make our table look welcoming and clean?

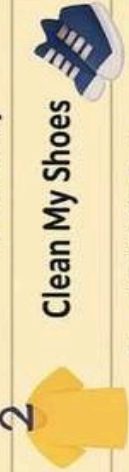

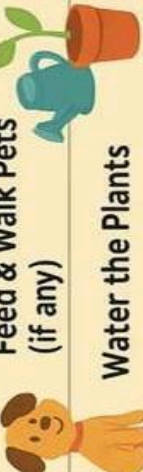

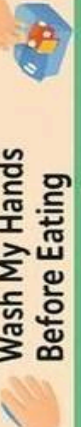

This activity promotes independence, responsibility, teamwork, communication, fine motor skills, and table manners.

## LIFE SKILLS- "MY LITTLE PLAN FOR A BIG, BRIGHT DAY!"

**Instructions** - Paste this chart on your study table. Track your daily routine for 20 days by ticking off each activity you complete. Give yourself one star sticker for each activity. Find out which day you got the most stars and reflect on what made it successful.

**Learning Outcomes** - This activity promotes responsibility, self-care, self-esteem, self- confidence, and independence.

# EXPERIENTIAL LEARNING - DISCOVER THE LEGACY

MONUMENT RED FORT  
NEW DELHI

## LEARNING OUTCOME

- Identify the Red Fort as an important historical monument and symbol of India's heritage.
- Recall key features of the Red Fort, such as its red sandstone walls, gates, and courtyards.
- Develop an early understanding of India's history and Mughal architecture through guided observation.
- Build vocabulary with words like fort, gate, palace, rampart, and independence.
- Understand the significance of the Red Fort in national events like Independence Day.
- Express their learning through drawings, storytelling, and simple journal entries about the visit.

# Stream Learning

## EXPERIMENT

How to make a parachute

## THINGS REQUIRED

- Plastic bag
- 4 pieces of string (14 inches long each)
- Spoon
- Scissors

## STEPS TO FOLLOW

- Take a plastic bag and cut it into a 12-inch square.
- Tie a string to each corner of the square.
- Tie the other ends of the strings to the spoon.
- Stand on a chair and drop the parachute. What happens?

## LEARNING OUTCOME

- *Understand Basic Engineering Concepts*

Recognize that the shape and design of a parachute affect how it falls.

- *Explore the Concept of Air Resistance*

Understand that air can slow things down, especially large, flat surfaces.

- *Observe and Record Results*

Describe how the parachute falls and how the spoon behaves.

- *Build Scientific Vocabulary*

Learn and use words like air resistance, parachute, drop, fall, and float.

- *Develop Critical Thinking Skills*

Ask questions such as, “What if we made the parachute smaller?” or “What if we added a hole?”

- *Make Real-World Connections*

Relate parachutes to skydiving and space landers.

## SCIENTIFIC CONCEPT

To make parachutes easier to control, a hole is made at the top. This hole reduces air resistance.

### CLASS 2 SUMMER READING

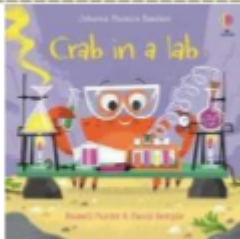

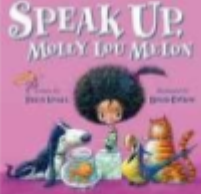

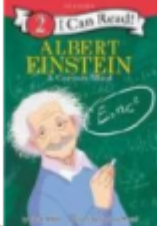

Dear Parents,

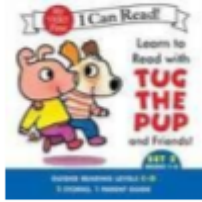

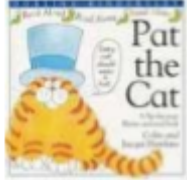

Summer reading for little Genkans is important! Research shows that children who read during the holidays are better prepared for the academic year and avoid the “summer slide” — the loss of reading and learning skills over the summer break.

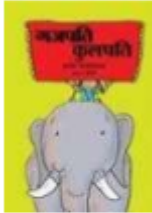

Make reading during “down-time” an opportunity for family members to bond together. Attached is a curated book list with links for your review. Please choose books that interest your child.

Happy, relaxed reading!

and count all my   \_\_\_\_\_.

## Numbers Everywhere – Part 1

Read the pictures and write the correct words from the given bubble. Then re-read the passage to build fluency.  
Learn the spellings of the number names.

Numbers, numbers in the air,  
Numbers, numbers everywhere!  
The numbers sailed both far and wide  
They landed all over the countryside:

## Comprehension

Read the poem. Draw a line under the words that begin with l blends. Write a complete sentence to answer each questions.

The illustration shows a young boy with brown hair, wearing a red shirt and blue pants, standing on a yellow wooden floor and looking out a window. Outside the window, there is a green field, a blue sky with a yellow sun, a white cloud, a brown tree, a yellow clock, a pink flower, and a blue vase. A black spider is on the window frame. The boy's hand is pressed against the glass.

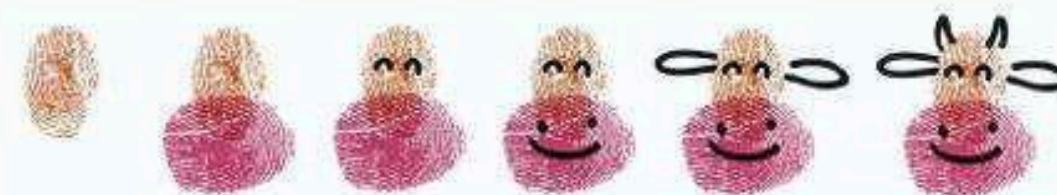

**Our Senses**  
Hear the wind blow.  
See the blue sky.  
Hear the clock tick  
and the loud, buzzing fly.  
Feel the smooth glass.  
Smell the sweet flower.  
Hear the plane roar  
as it flies by the tower.

1. What can the boy smell?

2. What can he feel?
